

# EMERGYS

## Simple Enterprise Solution

### Simple but Significant

#### INTRO/OVERVIEW

Digitalization is effecting changes in nearly every industry; even long-established companies are undergoing profound changes

With regard to the effects of digitalization, Professor Walter Brenner of the University of St.Gallen stated, "The aggressive use of data is transforming business models, facilitating new products and services, creating new processes, generating greater utility, and ushering in a new culture of management,"

Simple Enterprise Solution from Emergys delivers a platform to create a competitive business, with exponential growth potential. Simple Enterprise Solution with SAPS/4HANA in the Cloud, has the advantage of combining in-cloud computing and in-memory performance.
